A valuable (and free!) resource at your fingertips. Not only acts as a dictionary and thesaurus, but also can translate words into (or from) multiple languages. A must-have bookmark in your browser!

A wonderful site that contains easy-to-understand articles on a vast array of topics. Ever wonder how a CD works? What exactly is anthrax and why is it so dangerous? These and many more topics are available to you on this site. Expand your knowledge with this terrific web site!

Don't have a phone book available? This site will find the number you need in seconds. It can search the local area as well as other cities.

This is one of my favorite recreational sites. It's your online resource for everything relevant in the world of sports. ESPN.com offers the latest scores, highlights, news stories, and commentary on nearly every sport imaginable. Be sure to check out the insightful and frequently humorous columnists that are found on Page 2 and Page 3 (links within the ESPN.com site). Who needs to watch the sports news on TV when you have it all at your fingertips?
